CORK

Cork is lightweight, low density and is naturally water resistant with thermal and acoustic properties. Cork is a versatile material ideal as a substrate for felt or use alone as an enviro-friendly interior finish.

PRODUCT

100% Cork is a sustainable renewable material harvested from the bark of cork oak trees. Our cork is agglomerated with 0.5 mm granulated cork and polyurethane binders. Stocked in sheets and rolls.

GENERAL PROPERTIES

Specific Weight (kg/m ³)	over 150
Tensile strength (mpa)	over 0.30
Compression (%)	30-50
Recovery (%)	over 75
Boiling Water	No desegregation

**Special orders available/minimum quantities required.*

WIDTH

Standard Roll Size	122cm (48")
Standard Sheet Size	61cm x 91.4cm (24" x 36")

THICKNESSES

.080mm (1/32")
1.50mm (1/16")
2.50mm (3/32")
3.00mm (1/8")
4.00mm (5/32")
5.00mm (3/16")
6.00mm (1/4")
9.50mm (3/8")
12.5mm (1/2")

STORAGE

We recommend to store the product at: 20°C-60% HR
