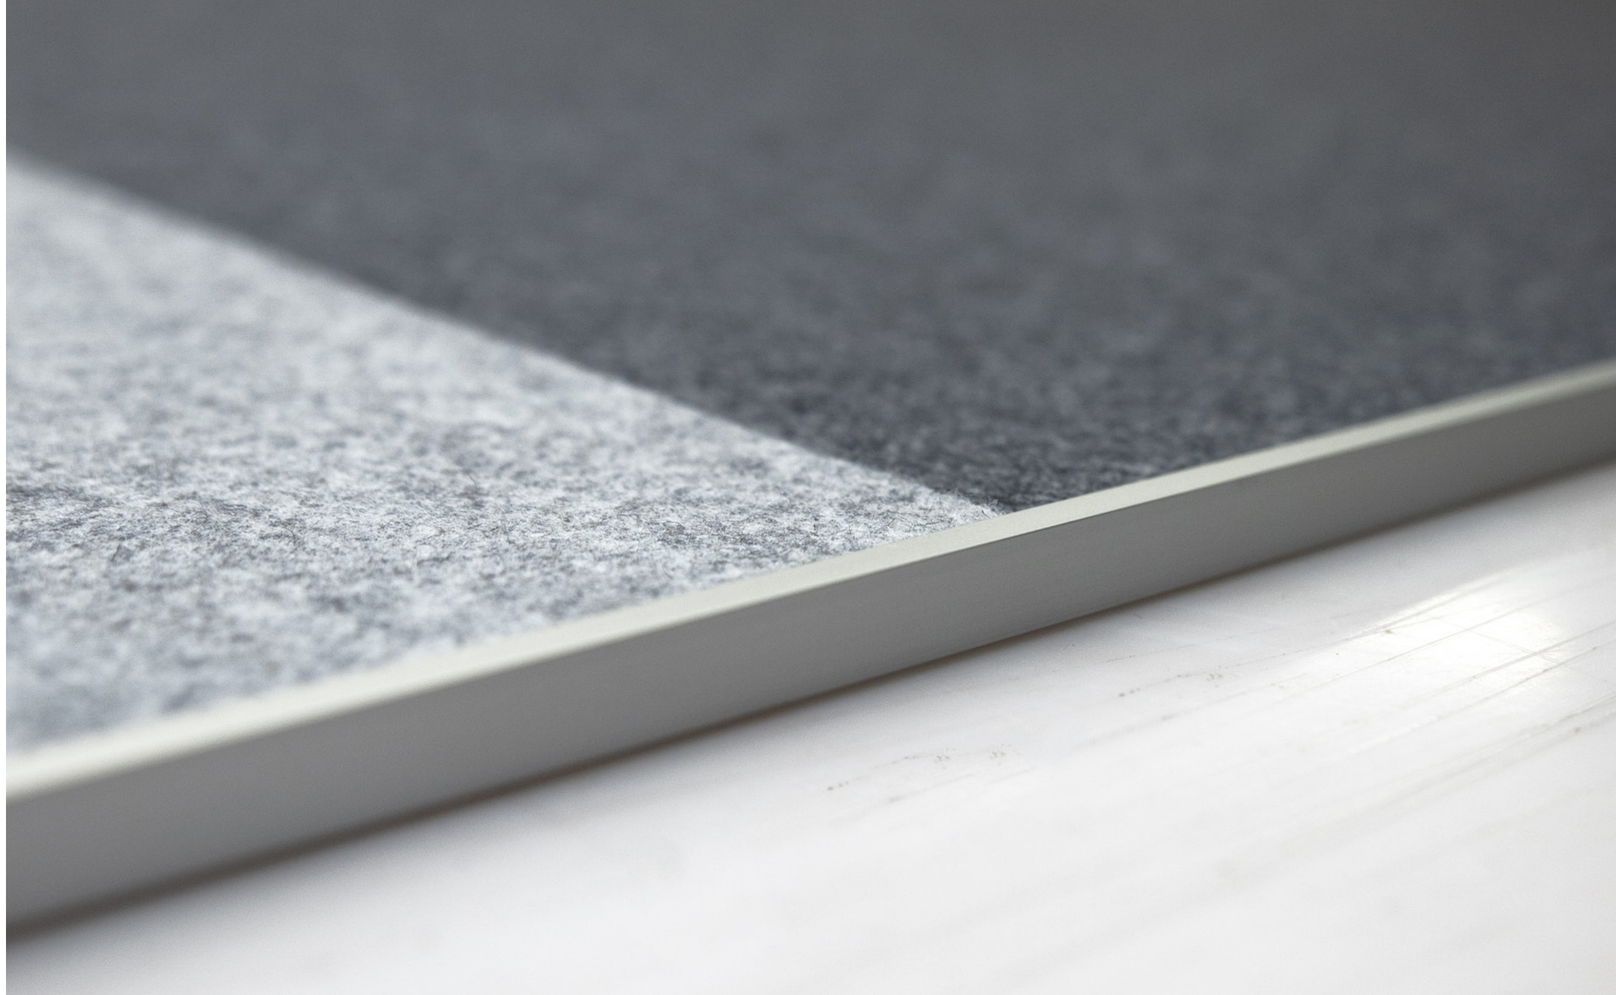
FELT DÉCOR PANELS

Felt Décor Panels are made of 3mm wool felt and laminated onto a rigid high-performance acoustic core. The 6mm cores are a standard heather dark gray to complement any felt surface if exposed. These easy to install panels provide a simple and effective solution for most wall applications.

ACOUSTIC DESIGN + FUNCTION BY INTERIOR FELT



STANDARD SHAPES

Standard shapes are rectangular with max dimensions 48″ x 96″. Custom sizes and Designs are also available upon request.

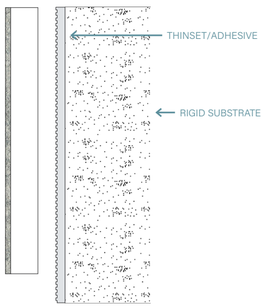
INSTALLATION

DIRECT TO WALL (GLUE DIRECT)

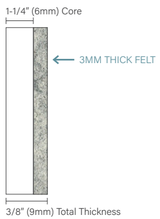
Trowel or roll on wall adhesive to a substrate and place the panel on the thin-set in the desired pattern.



TILE SPECIFICATIONS

Tiles are made to order. Refer to the chart below as a guide. More details are available upon request.

SPECIFICATIONS	
Total Thickness	3/8" (9mm)
100% Wool Designer Felt Thickness	1/8" (3mm)
Acoustic Core Thickness	1/4" (6mm)
NRC	.60 - .65
Flammability	Test reports available upon request (ASTM E84, CAN S-102)
Density	8 PCF



Our acoustic cores are Class A fire rated in accordance with ASTM E84, CAN S-102. They contain no formaldehyde or air borne contaminants.
Custom core thicknesses available upon request.
Note: Assembly and quantity of product-to-area ratio affect NRC values.
